

BaitGun®

The BaitGun is easy to use and requires no special techniques.

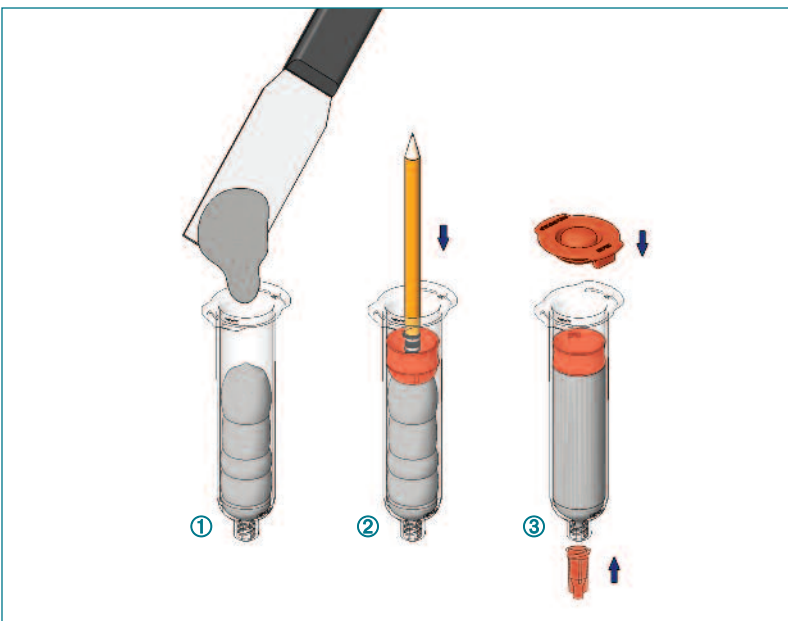

The amount dispensed is controlled by the squeeze of the trigger and the size of the dispensing tip (larger tip, more flow).

When the trigger is released, the plunger retracts away from the reservoir piston, and dispensing stops.

Follow this step-by-step guide to begin using your new BaitGun.

User's Guide

Filling the Reservoir

① Fill reservoir about 2/3 full using spatula.

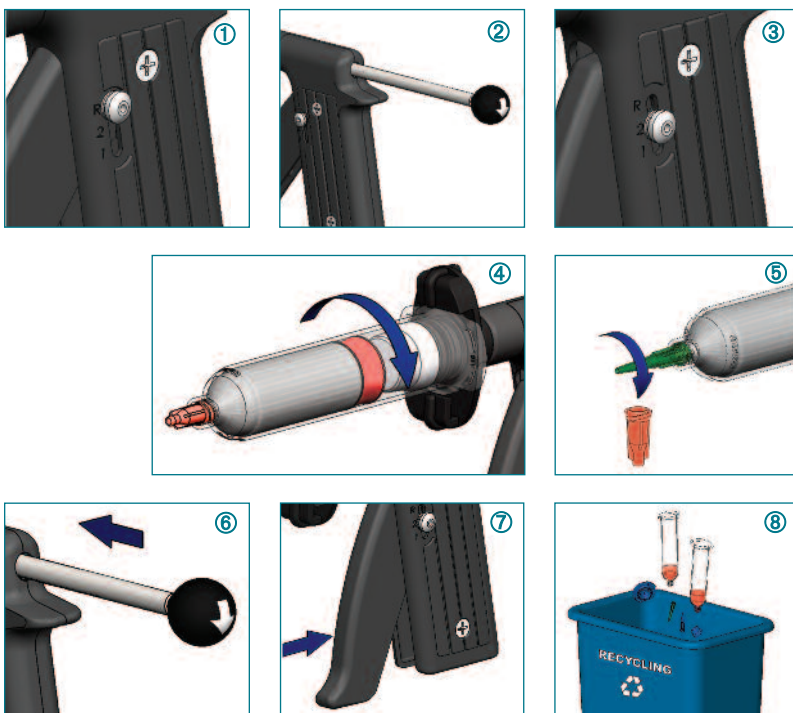

② Insert piston.

Note: When operating the BaitGun, a piston must always be used.

③ Snap on reservoir tip cap and twist on end cap.

Note: Leave minimum 5/8" empty space in reservoir for piston and drive plunger.

WARNING: If a dispensing tip becomes clogged, do not attempt to clear it by forcing the trigger. This may damage the BaitGun. Put on a new tip.

Operating the BaitGun

① Release drive rod by squeezing trigger and moving selector button to **R**.

② Pull out drive rod as far as it will go.

③ Set hand grip by squeezing trigger and moving selector button to **2** or **1**.

④ Attach reservoir to gun. Twist to lock.

⑤ Remove reservoir tip cap and attach dispensing tip.

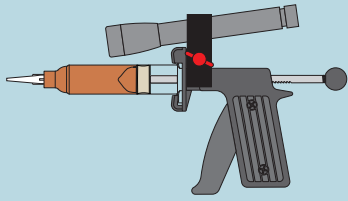

⑥ Push drive rod until plunger touches piston. Turn drive rod knob until teeth face down and trigger mechanism is engaged (arrow on back of knob points down).

⑦ You are now ready to dispense. Gently squeeze trigger until paste flows. You control the amount. When trigger is released, dispensing stops, and the drive rod retracts away from the piston. After several deposits, advance the drive rod by pushing the black knob forward, then continue dispensing.

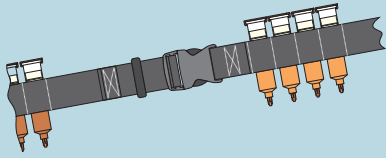

⑧ When finished, remove empty reservoir and discard. Reservoirs that are not empty can be sealed with tip caps for future use.

NOTE: To ensure no-drip performance, the drive rod retracts after each deposit to relieve pressure on the piston. The drive rod does not advance automatically.

Accessories for the BaitGun System

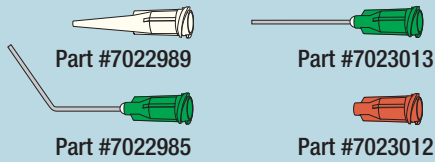

Illuminator™ Flashlight that mounts on the BaitGun with swivel bracket. Features push-button ON/OFF switch and adjustable spot or flood beam. **Part #7022991**

BaitBelt™ Durable black Cordura nylon belt keeps the BaitGun and (10) extra reservoirs close at hand. **Part #7022987**

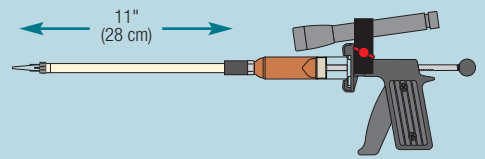

Tip Kits Replacement stainless steel tips, smooth flow plastic tips and tip cap with positive SafetyLok™ thread attachment.

Long Reach Tip Access hard-to-reach areas with this extra long stainless tip. **Part #7022994**

Long Reach Tip with a Band 90° Access hard-to-reach areas with this extra long stainless tip. **Part #7022995**

LongShot™ 11" long extension tip for reaching normally inaccessible areas. Airtight cap on either end for storage. **Part #7022996**

TWO YEAR LIMITED WARRANTY

When you return the Registration Card, the BaitGun is warranted for two years from date of purchase to be free from defects in material and workmanship (but not against damage caused by misuse or negligence). Specialty Products will repair or replace free of charge any part of the equipment thus found to be defective, on return of the part prepaid to our factory during the warranty period.

In no event shall any liability or obligation of Specialty Products arising from this warranty exceed the purchase price of the equipment. Before using, user shall determine the suitability of the product for his intended use, and user assumes all risk and liability whatsoever in connection therewith.

To register your warranty, you must complete the attached card and return to Specialty Products within ten days.

Specialty Products makes no warranty of merchantability or fitness for a particular purpose. In no event shall Specialty Products be liable for incidental or consequential damages.
